

DDI-1021-74

5 April 1974

MEMORANDUM FOR: Director of Central Intelligence
THROUGH : Acting Deputy Director for Intelligence
FROM : Director of Current Intelligence
SUBJECT : Maps and Photos in the CIB

1. In response to your query about the use of maps and photographs in the CIB, it is our practice to use these as much as possible. The issue to which you called attention happens to be one of the few in recent months that has contained no graphics. It is coincidence that none of the items in this issue required graphics, not intention.

2. Our resources for graphics production are finite, however, and the CIB must take second place to the NID. Moreover, because of differences in production technique it is often impossible to use the same graphic for both. Our facilities are particularly strained on Thursday nights, when the Weekly is also being published. Nonetheless, I think you will find that the CIB, except perhaps on Friday morning, normally contains an acceptable level of graphics.

RICHARD LEHMAN

Director of Current Intelligence

Concur:

Acting Deputy Director for Intelligence

Remarks:

Would it be feasible
to include maps photos
in the CIB too?
